WILLIAM STEWART HALSTED
was professor of surgery in the Johns Hopkins University.
In 1890 he had bronze casts made of his own hands. On these casts the first surgical rubber gloves were moulded.

- >> Alle unsere Mikroscheren werden von Fachkräften mit jahrelanger Erfahrung hergestellt. Die Endkontrolle findet unter dem Mikroskop statt. Um Ihnen ein ermüdungsfreies Arbeiten zu ermöglichen, wird dem Federdruck größte Aufmerksamkeit gewidmet.
- >> Bitte wählen Sie unter Rund- oder Flachgriffscheren.

Dissection: Gebogene Blätter, abgerundete Spitzen ermöglichen eine gute und sichere Dissektion, ohne Nerven und Blutgefäße zu beschädigen.

Adventitia: Gerade Blätter, sehr scharfe Spitzen gewährleisten präzises Anfrischen von Gefäßenden.

Nerve: Ein Blatt ist fein gezahnt, um ein Herausgleiten des Nerven zu vermeiden.

- >> All our Micro Scissors are manufactured by skilled craftsmen with many years of experience. Final inspection is carried out under a microscope. Careful attention is paid to the closing pressure of the spring handle, to ensure precise work during surgeries, without fatigue.
- >> Round or flat handle scissors according to your preference.

Dissection: Curved blades, slightly rounded tips ensure safe dissection without damage to nerves and vessels.

Adventitia: Straight blades, very sharp tips for finest trimming of vessel ends.

Nerve: One blade is fine-toothed to avoid slipping of the nerve.
